

The ultimate fusion of protection and durability, in a lightweight moisture barrier.

SUBSTRATE COMPOSITION:

20% PBI®
30% Nomex®
50% Kevlar®

Stedair Gold® is a revolutionary moisture barrier that combines meta-aramid with ePTFE bi-component technology film and high-performance PBI flame-resistant fibers. The result: a lighter, more comfortable moisture barrier with the increased thermal stability of PBI fibers.

6 REASONS TO CHOOSE STEDAIR GOLD

- 01** PBI fibers provide superior flame resistance and heat protection, while Kevlar fibers offer great durability and improved bursting strength
- 02** Lightweight comfort at 5.2 oz
- 03** 7-year warranty
- 04** Stays waterproof to minimum 1 PSI after exposure to -4°F
- 05** The best combined THL and TPP in the industry
- 06** Provides superior protection against blood borne pathogens, toxic industrial chemicals (TICs), toxic industrial matter (TIMs) and other harmful chemicals

THE NFPA VERTICAL FLAME TEST SHOWS **OVER THREE TIMES** THE CHAR LENGTH ON COMPETITIVE MOISTURE BARRIER COMPARED TO STEDAIR® GOLD.
